

Northern Hills Training Center Improvement Plan/Progress Report Form

Principle: 3 – Appropriate Evaluation				
Present levels: (Statement of present levels of performance that resulted in area of non-compliance) Northern Hills Training Center conducts yearly ICAP assessments on their supported individuals. All individual evaluations require prior notice and parent/adult supported individual consent. Prior written notice with the required content is not used by Northern Hills Training Center, parents/adult supported individuals are not notified concerning what evaluations will be done, nor is it documented that they are given the opportunity to provide input into the evaluation process.				
Desired Outcome(s): Through systemic change, the district/agency will achieve these results for students with disabilities and their families. The agency will provide appropriate written notice, obtain informed consent and give parents/adult supported individuals the opportunity to provide input into the evaluation process before assessments are administered to the adult student as part of an evaluation or reevaluation.				
Measurable Goal: The district/agency determines what goals are appropriate given the areas of difficulty. There must be a direct relationship between the goal(s) and the needs identified in the present levels. (Multiple goals may be identified for each principle. Please complete a new sheet for each goal.) Written notice will be provided, informed consent will be obtained and parents/adult supported individuals will be given the opportunity to provide input into the evaluation process.				
Short Term Objectives: Include the specific measurable results that will be accomplished and the criteria that will be used to measure the results.	Timeline for Completion	Person(s) Responsible	6 month progress Record date objective is met	12 month progress Record date objective is met

Principle: 4 – Procedural Safeguards				
Present levels: (Statement of present levels of performance that resulted in area of non-compliance) Through a review of student files and interviews with staff, the reviewer found the agency does not provide a copy of the procedural safeguards notice prior to parents/adult students when initiating evaluations and meetings.				
Desired Outcome(s): Through systemic change, the district/agency will achieve these results for students with disabilities and their families. Procedural safeguards will be made available to the parents of a child with a disability/adult supported individual.				
Measurable Goal: The district/agency determines what goals are appropriate given the areas of difficulty. There must be a direct relationship between the goal(s) and the needs identified in the present levels. (Multiple goals may be identified for each principle. Please complete a new sheet for each goal.) Procedural safeguards will be provided to parents/adult supported individuals at the time notice is given.
